### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Fortunato (Reg. No. 42,548) on April 29, 2005.

The application has been amended as follows:

- (a) On line 3 of claim 24, "general" has been changed to --generally--,
- (b) On line 2 of claim 28, "transfer set includes a" has been deleted,
- (c) On line 3 of claim 28, "having" has been replaced by --has--, and
- (d) On lines 4-5 of claim 28, "a second open distal end portion adjacent said generally closed portion of said fluid transfer valve" has been replaced by --said lateral opening of said generally tubular luer connector--.

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach a transfer set having generally tubular elastomeric fluid transfer valve member with an open end and closed end, the closed end having a longitudinal slit, and a piercing member received in the transfer valve member, wherein an outwardly tapered portion of the transfer valve member closely receives an enlarged end portion of the piercing member, and wherein a generally tubular luer connector member surrounds the transfer valve member and has an opening adjacent the outwardly tapered tubular portion of the transfer valve member.

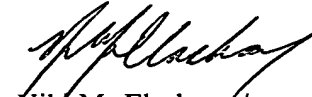

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
